

Nosenko Sergey Alexandrovich, born in 1968 graduated from the Voronezh School of Military Engineering of Radioelectronics. After the service in the Armed Forces of the Russian Federation began working in the agricultural complex, in commercial organizations «Jet» and «Raduga» in July 1994, then in CJSC «Melkruk» in the position of the Director General.

In 1996 graduated from All-Russian Distance Institute of Finance and Economics in Moscow with a degree in «Economics, Accounting, Auditing and Analysis». Then he has been working in the grain company for two years.

Taking into account a high professional level, Sergey was appointed to the position of the CEO of JSC «Bryanskpivo». Thanks to the best business practices, he began modernizing and reconstructing the company: fermentation and lager cellar, utility systems, a new transformer sub-station has been launched; reconstruction of the malt mill with capacity of 100 tones per day; a new safety mashmap has been installed; automated supply and cleaning of malt and a filling line for PET containers with capacity of 9000 thousand of bottles per hour has been set etc.

Having a five year experience in the position of the CEO of «Bryanskpivo», Sergey showed himself a great organizer – manager and analyst. Having paid much attention to human resources, he selected a bright management team. He is respected by directors of different companies and colleagues.
